Statements

This document was prepared to provide an estimate of replacement cost through Oliver Smith Jeweler and is for the intended use of obtaining insurance. Any other use of this document is invalid and likely to mislead others who might rely on it.

The intended method of replacement is with a new item of like kind.

Every effort has been made to grade the gemstones described in this document as accurately as possible within the normal and reasonable gemological ranges. Opinions of quality and grade may vary upon reexamination by another qualified gemologist.

Unless otherwise stated, all gemstone weights, grades and measurements are approximate and stones have not been removed from their mountings.

Diamonds are graded with the proscribed grading nomenclature of the Gemological Institute of America (GIA) and the use of pre-graded permanent master diamond color comparison stones and are graded under corrected light - daylight equivalent.

Unless otherwise stated, all colored stones listed on this appraisal report have probably been subjected to a stable and possibly undetectable color enhancement process. Prevailing market values are based on these universally practiced and accepted processes by the gems and jewelry trade.

Every effort has been made to determine the metal identity and fineness of any mountings described in this document as accurately as possible without the use of damaging tests.

Unless expressly stated, the condition of the item(s) appraised is good. Any serious deficiencies and repairs are noted. Ordinary wear and tear is not noted.

The gold market on the date of this report is \$1,242.40 US per ounce.
